American Kestrel

We had a visitor a while back: This beautiful American kestrel came to our property and made our yard her hunting territory. She allowed me to get quite close, and these photos were taken with my phone. Because she was so elegant, we named her Queen Iris. She stayed with us for about three weeks.

If you would like to see your photographs highlighted here, send one or two pictures with a short paragraph to Sandy Sorkin & Rick Wright at MontclairBirdClub100@gmail.com.
