

THE MONTCLAIR BIRD CLUB

QUIZ 142

April 3, 2022

What color is the tail of a slate-throated redstart? For extra credit, what color is the belly?

Redstarts, like the collared redstart, come in many colors.

Link to ponder: The [Laysan rail](#).

THE ANSWER IS ON THE NEXT PAGE

Slate-colored Redstart

The tail is black and white.

The belly is red in Mexico, orange-red in northern Central America, and yellow from Costa Rica to South America.
