

THE MONTCLAIR BIRD CLUB

QUIZ 92

April 18, 2021

What was the first North American bird species to be imported into North America?

European Starling

House Sparrow

Canada Goose

Hint: It is probably not one of these birds.

Link to ponder:

Persian birds of the [fifteenth and seventeenth centuries](#).

Minnesota [Bird Songs](#)

THE ANSWER IS ON THE NEXT PAGE

Turkeys were originally taken from North America to Europe; then their descendants were brought back to America by subsequent waves of European colonists.
