

THE MONTCLAIR BIRD CLUB

QUIZ 86

March 7, 2021

What happened to the 52 Eurasian jackdaws discovered in Quebec in November 1984?

Link to ponder:

Gould, Darwin, and the [birds of the *Beagle*](#).

THE ANSWER IS ON THE NEXT PAGE

They were all shot or poisoned by the Quebec Fish and Game Department for fear that they might threaten other bird species in the province or become agricultural pests.
