

# THE MONTCLAIR BIRD CLUB

## QUIZ 196

July 9, 2023

You've seen a lot of birds in North America, but which of these three is the most numerous? How many would you estimate there are?

Dark-eyed Junco

American Robin

Mourning Dove

Link to ponder: A fire-favoring [woodpecker](#).

**THE ANSWER IS ON THE NEXT PAGE**

The global population of the American Robin is estimated at 370 million individuals.

The mourning dove population is said to be 150 million, and the dark-eyed junco 220 million.
