

THE MONTCLAIR BIRD CLUB

QUIZ 69

December 6, 2020

Name three New Jersey passerines that regularly walk rather than hop. On the ground, hopping takes a little more energy than walking.

The American robin can walk and hop.

Link to ponder:

Dutch bird fanciers in the eighteenth century—and a little denigration of everyone's favorite [ornithological quack](#).

THE ANSWER IS ON THE NEXT PAGE

The American pipit, horned lark, brown-headed cowbird, etc.

American Pipit

Horned Lark

Brown-headed Cowbird
