

# THE MONTCLAIR BIRD CLUB

## QUIZ 186

April 30, 2023

What is New Jersey's most abundant Antarctic migrant?

Link to ponder: More than 18 million photos, videos, and audio recordings of more than 10,000 species of birds—[The Macaulay Library](#).

**THE ANSWER IS ON THE NEXT PAGE**

The Wilson storm petrel breeds as far south as Antarctica but regularly visits all oceans of the world, except for the North Pacific and Arctic Oceans.

Not the snowy owl living in the Arctic, or the tufted puffin that may occasionally go from the North Atlantic Ocean to above the Arctic Circle.
