

# THE MONTCLAIR BIRD CLUB

## QUIZ 189

May 21, 2023

We're always looking for the most and least with birds. The question is which birds have the least number of feathers?

Mute swans are big birds and may have 25,000 feathers.

Link to ponder: Find a birding [hotspot](#).

**THE ANSWER IS ON THE NEXT PAGE**

The larger the bird the more feathers they have. Hummingbirds are the smallest and they have the fewest feathers. The total may be less than 1,000 feathers.

Fiery-throated Hummingbird
