

THE MONTCLAIR BIRD CLUB

QUIZ 164

November 27, 2022

Which New Jersey birds have no hollow bones?

Red-throated Loon

Common Yellowthroat

Ruby-throated Hummingbird

Link to ponder: The legal responses to the risks posed to birds [by climate change](#).

THE ANSWER IS ON THE NEXT PAGE

Loons

Loons don't have any hollow bones. It's thought that solid bones make it easier for these birds to dive.

Common Loon
